APPLICATION FOR PERMIT FOR PRIVATE SEWAGE DISPOSAL INSTALLATION

IMPORTANT: The Sangamon County Department of Public Health does not guarantee trouble-free operation of this sewage treatment and disposal system by the issuance of this permit or by the final approval of the sewage disposal installation. The contractor who installed the system is responsible for compliance with the Illinois Private Sewage Disposal Licensing Act and Code, and with the Sangamon County Sewage Ordinance. The property owner is responsible for any nuisance or health hazard that may result from the use of the system. **NOTE: THIS PERMIT EXPIRES 1 YEAR FROM THE DATE OF APPROVAL IF CONSTRUCTION OF THE SYSTEM HAS NOT STARTED.**

1 These distances have been determined for use in clay, silt, and loam soils only. The minimum distances required for use in sand or other types of soil shall be determined for the proposed private sewage disposal system and approved by the Department. Approval will be given if the Department determines that the soil will provide treatment of the sewage.

2 For Separation distances to closed loop well, see 77 Ill. Adm. Code 920.180

3 See Section 905.20(d) for additional details on water line and sewer separation.

4 If a common property is used, the boundary of the common property shall be used.

5 The building sewer or surface discharge effluent line may be located to within 10 feet of a well or suction line from the pump to the well when cast iron pipe with mechanical joints or Schedule 40 PVC pipe with watertight joints is used for the building sewer or surface discharge effluent line.

6 Any surface discharging system installed, repaired, or renovated after January 1, 2014.

7 Class V injection Wells are defined in Illinois Pollution Control Board rules. They are typically a shallow well used to place fluids directly below the land surface. See, e.g., 35 Ill. Adm. Code 704.105, 704.106, and 704.280.

8 A lesser separation distance may be obtained with approval or a waiver from IEPA.

9 There shall be 25 feet separation from public water supply, water mains, and water service lines. The terms public water supply, water main, and water service line shall have the same meaning as in the Illinois Pollution Control Boards Public Water Supplies rules. See, e.g., 35 Ill. Adm. Code 653.118 and 653.119.

NOTES:

1. Limiting layers include fragipans; bedrock; compact glacial tills; seasonal high water table or other soil profile features that will materially affect the absorption of liquid from the disposal field.
2. ² Soils in this group are less than the minimum percolation rate established in Appendix A, Illustration H as suitable for subsurface seepage systems.
3. ³ NR = Subsurface disposal system not recommended.

RE: Septic System Installation Application Packet and
Procedures for Septic Tank Installation and Repairs

Attached in this Septic System Installation application packet you will find:

1. Application for Permit for Private Sewage Disposal Installation;
2. Minimum Requirements for Septic Tank Installation;
3. Soils Loading Rate Chart; and
4. Sketch Sheet of Installation Plan.

Please submit all completed forms in the application package with the **\$275.00 fee payable to Sangamon County Department of Public Health**. Please include soil analysis results with application.

A request for variance from this Department is required at the time the application package is submitted if:

- a. the requirements of the Private Sewage Disposal Licensing Act and Code cannot be met; **OR**
- b. the lot is under one (1) acre in size.

Your application package must be approved by Sangamon County Department of Public Health before construction begins on a new installation or repair of an existing system. Your approved permit will be issued upon final inspection.

Two inspections *may* be required:

1. Initial inspection (if circumstances warrant); **AND**
2. Final inspection of the installation or repair of existing system is required prior to back filling.

48 HOURS' NOTICE IS REQUIRED FOR:

1. **REQUESTS FOR SOIL ANALYSIS OF PROPOSED SUBDIVISIONS OR PROPERTY DIVISION;
AND**
2. **FINAL SEPTIC SYSTEM INSPECTIONS.**

If you have any questions, please call our Environmental Health Division at 535-3145. Your cooperation is appreciated.
Rev. 7/13/2011

****Please use the attached Septic Application and Specifications from this date forward.**

Thank you!
